Registration Open for Track Superintendent Field Day at Gulfstream Park

Registration is now open for Track Superintendent Field Day on June 12-14 at Gulfstream Park in Hallandale Beach, Florida. The gathering brings together track superintendents and staff to discuss best practices related to track maintenance, safety and operational issues for racing and training facilities.

“We are thrilled to be heading to Florida in 2022,” said Roy Smith, founder of the event and track superintendent at Indiana Grand Racing & Casino. “Gulfstream Park is a world-class facility with terrific racing surfaces.”

Track Superintendent Field Day started as a small meeting at Philadelphia Park (now Parx Racing) in 2002 and since then has grown to become one of the racing industry’s largest and most important events focusing on track safety.

New regulations under the Horseracing Integrity and Safety Act (HISA) are set to begin later this year, so the Field Day agenda will include a panel on ensuring that superintendents are ready for the hefty reporting requirements. This will also fulfill four hours of continuing education.

Track Superintendents Field Day is not-for-profit 501(c)(3) entity, and registration is free for superintendents and their staff, supported solely by the sponsors of this event, including title sponsor Equine Equipment.

The only expenses for track superintendents and staff are transportation and a discounted hotel rate at the Hampton Inn Hallandale Beach as the host hotel.

“My team and I look forward to welcoming everyone to Gulfstream Park,” said Tony Martinez Jr., track superintendent at the South Florida track.

“Track Superintendent Field Day always provides extensive educational information and networking, so we are proud to support this for the betterment of the industry,” said Steve Andersen of Equine Equipment. “The panels and speakers we bring together are instrumental in cultivating the superintendents of tomorrow and in building the skillsets of current supers. We urge tracks to send their key people to demonstrate a willingness to invest in their future and get the annual training from the oldest track superintendent group in North America.”

To register, call 877-905-0004 or email tracksupers@gmail.com.

More information regarding registration and the agenda will be forthcoming at www.tracksupers.com.
